At Eagle, we don't just build homes, we build communities that celebrate life's moments by bringing people together and families closer to what matters most. Since 1984, Eagle has been one of Central Virginia's most trusted builders. Eagle's commitment to excellence is surpassed only by our passion for crafting experiences that transcend construction. Eagle is owned by a Richmond-based, Fortune 500 Company, Markel Corporation, which allows our company to grow and to last. With 135 communities and over 6,000 homes built from Central Virginia to Hampton Roads, we've made our mark by continuously delivering on our commitment to excellence and attention to detail... building homes doesn't start with plans, it begins with people.
